Corrigendum

Prevalence of High Tricuspid Regurgitation Jet Velocity in Patients with Sickle Cell Disease

Post-publication Author Correction

Following publication of the above article, the Editorial Office of the *Iraqi National Journal of Medicine (IqNJM)* received a formal request on **7 July 2025** from **Dr. Assad Faisal Al-Kuheli** requesting a correction to the authorship of the article, including removal of one author and rearrangement of the author sequence.

Upon receipt of this request, the **Editor-in-Chief** initiated a formal investigation in accordance with the journal's bylaws and authorship correction policy. As part of this process, **Dr. Weal Al-Shehaby** and the Editor-in-Chief contacted **all originally listed authors as well as the newly proposed author**, both directly by telephone and officially via email.

The communications and documentation provided to the Editorial Board demonstrated clear evidence that **Dr. Saifali Jabbar Al-Jabran does not fulfill the authorship requirements** as defined by the **International Committee of Medical Journal Editors (ICMJE)** criteria. In contrast, the investigation confirmed that **Dr. Jawad K. Atiya fulfills all ICMJE authorship criteria** and should be included as an author of the article.

All authors involved submitted a **signed covering letter** confirming their agreement with the proposed authorship changes and revised author sequence.

Based on the findings of the investigation and following discussion during the **regular meeting of the Editorial Board held on 11 January 2026**, the Board approved a **formal correction to the authorship** of the article. Accordingly, a **Corrigendum** is issued to reflect the corrected authorship information and will be published in **Volume 8, Issue 1** of the *Iraqi National Journal of Medicine*.

The authorship correction does not affect the scientific content, results, or conclusions of the article.
